I secured 79% marks with first class and distinction in Computer Engineering.

Maharaja Surajmal Institute Of Technology, Delhi — *Degree*

2019 - Present

I am pursuing B. Tech in Information Technology and expecting to graduate in 2022.

PROJECTS

ElectraBlue Kernel — *Linux Kernel for Android*

I've developed this kernel for Xiaomi Redmi Note 4 and Android One 1st generation devices using the OEM source code.

Foodster — *A food catalogue Android app*

A basic food catalogue Android app which has login and register functionalities and it uses Firebase for authentication and database management.

ABS Tweaks — *Bash scripts for Android*

It is a collection of multiple Bash scripts that works together to improve performance and battery life of rooted Android devices.

vipuljha.com — *Portfolio website*

It's my portfolio website which I made from scratch using HTML, JavaScript, CSS and Bootstrap. I've also used few open source plugins developed by other developers.
